The Family Educational Rights and Privacy Act of 1974 ("FERPA") is a federal statute designed to protect the privacy of a student's educational records. All schools receiving funds from an application program with the U.S. Department of Education must comply with FERPA. FERPA prohibits schools from releasing certain information contained in your educational record without your express consent. Examples of this protected data include: your grades, billing and payment records, financial aid awards, and other student record information as defined by statute. For further information on FERPA, see <https://www2.ed.gov/policy/gen/guid/fpoo/ferpa/index.html>.

The Higher Education Act ("HEA") places additional limits on the information that can be disclosed from your federal Free Application for Federal Student Aid ("FAFSA"). Schools may share a student's FAFSA information with scholarship granting organizations only with the student's express written consent. For these reasons, it is necessary for LSU Health Science Center - New Orleans ("LSUHSC-NO") to obtain your permission to release your financial information with the LSU Health Sciences Center Foundation ("Foundation").

The authorization below must be completed for each award year. You may revoke the authorization at any time.

By selecting the Provide Consent button, I hereby authorize LSUHSC-NO to release my biographical, demographic, enrollment, academic and financial aid data, including, but not limited to, the data and results of my FAFSA, to the Foundation for the purpose of determining my eligibility for scholarships and grants administered by the Foundation.

By selecting the Revoke/Decline Consent button, I revoke my previous authorization to LSUHSC-NO, which had allowed for the release of my student data to the Foundation for the purpose of determining my eligibility for scholarships and grants administered by the Foundation.
